BUSHEL OF WHEAT TAKES FERTILITY WORTH 77.76 CTS.

G. H. Hutton Makes Some Interesting Calculations of Soil Exhaustion.

In the removal of soil fertility from the land, the growing of one bushel of wheat costs the farmer of the west 77.76 cents, is the computation carefully wrought out by G. H. Hutton, of the agricultural and animal branch of the C.P.R. This amount of value must be replaced in the soil to retain its fertility, or sooner or later the land will be as bankrupt as a man who has drawn his last cent from the bank, is the contention of Mr. Hutton.

Mr. Hutton calculates the loss of fertility on the following basis, which, it has been proved, it takes to produce a bushel of grain: Nitrogen, 30 cents per pound; potash, 15 cents per pound; and phosphorus at 5 cents per pound. On this basis, and assuming that one and one-half pounds of straw is produced for every bushel of wheat, fertilizer and constituents will cost to the land for every bushel of wheat sold and sent out of the country, an average of 77.76 cents per bushel.

If livestock is kept on the farm and the fertilizer constituents of the straw is fed and put back on the land, the loss would still be 62.06 cents per bushel. This amount Mr.

Hutton figures out is a "dead" loss to the country for every bushel of grain, since the wheat is sold and sent out of the country.

From this Mr. Hutton deduces that mixed farming must be engaged in in the west to prevent ultimate soil bankruptcy. This will also help out in the wage question to farm laborers, as it will mean the keeping of men the year round, which will ultimately work out to the advantage of both employer and employee.

A Spring That Plays Only on Holidays

In the red sandstone of the Passaic Valley, Connecticut, there is a spring, located in a picnic ground, which formerly flowed perpetually. Its habits have changed, and it now flows only on Sundays and holidays. The mystery is easily explained. A number of artesian wells were bored into the sandstone in the vicinity of the spring to supply water to adjacent silk-dyeing establishments. Except on Sundays and holidays, when the pumps are not running, the artesian slope is drawn below the level of the spring outlet and the spring ceases to flow.

WAS ABOUT TO GIVE UP HOPE

Kept Losing Weight All the Time Until She Began Taking Tanlac.

"I have gained ten pounds in weight since I started taking Tanlac, and I honestly don't believe I would be here today if it hadn't been for this medicine," said Mrs. Constance Monahan, 338 Stella Avenue, Winnipeg, Man., recently.

"A year ago," continued Mrs. Monahan, "my stomach began to give me trouble and kept getting worse so rapidly that it was only a short while before I had lost all my appetite, and I had lost weight until I was scarcely more than a frame. Every mouthful I forced down soured on my stomach almost at once, my heart would palpitate dreadfully, and I had such terrible attacks of heartburn they nearly drove me distracted. I suffered with severe headaches nearly all the time and my nerves were in such bad condition the least little noise out of the ordinary would completely upset me and it was almost impossible for me to get any sleep at all, as I would roll and toss from one side of the bed to the other all night long and in the mornings I always felt miserable. Why I was so nervous and my hands trembled so bad I could not even put a teaspoonful of tea or coffee to my lips. My face was thin and pale, my cheeks sunken in and I was so weak and run down I couldn't do any part

of my housework. My friends often remarked that if I didn't soon get something to help me I would surely die, and I realized this perhaps better than anyone else. "I had been advised to take some kind of treatment, and as I had seen Tanlac so highly recommended, I decided to try it first. Well, I took three bottles before I could feel any change but I continued taking it. My appetite gradually improved, until now I am hungry just about all the time and can eat anything I want without suffering any bad after effects whatever. I am completely rid of the headaches and my nerves are in such fine condition I sleep all night as peacefully as a child. My cheeks have filled out, I have a fine color in my face and have regained my strength so that I now do all my housework with the greatest ease. I am truly thankful for what Tanlac has done for me, and I never miss an opportunity of telling others about it.

Tanlac is sold in Red Deer by Geetz-Cornett Drug & Book Co., and by the leading druggist in every town.

EXPORTS FROM DOMINION SHOW A BIG DECLINE

Ottawa, September 15.—Although the grand total of Canadian trade for the five months of the fiscal year which ended on August 31st, shows an increase of \$202,355.00, as compared with the same period in 1919, the value of Canadian merchandise exported declined by over twenty millions. The grand total of Canadian trade for the five month period of the present year was \$1,063,353,170, while in 1919 it was \$1,083,025,235. The total value of Canadian exports during the five months this year was \$454,448,559, being a decrease for this year of \$20,655,202.

While exports are below those of last year, the figures issued from the customs department show a great increase in the value of goods imported into Canada, as compared with a year ago. During the five months ending with the 31st day of August this year, the total value of goods imported into Canada was \$597,899,603, while last year, for the same period, it only amounted to \$365,254,358. This is an increase of \$231,635,245 this year. Duty collected on imports this year has already reached the figure of \$90,351,955, as against \$67,046,581 a year ago, an increase of \$23,305,374.

PARTY POLITICS

Canadian Finance is not a political party, but its comments on public affairs are generally well worthy of attention. In a recent editorial it discusses the present trend of Canadian politics, and says:

"Party politics and party governments have been receiving a full measure of denunciation for some time past. The party system has not escaped the prevailing desire to criticize anything and everything. But when an impartial analysis of the majority of the objections hurled at party politics is made it is evident that it is not always the system which is attacked in many instances it is abuse of the party system which draws the fire of those who believe they are attacking the system itself. Every system, political or otherwise, is subjected to abuse, but this failing, which is common to all institutions controlled by man, is not sufficient in itself to condemn the party system in politics. There must be something more."

"The alternative to the straight two-party political system would appear to be group or coalition government. There is more in group government than meets the eye. Taking the Ontario Legislature as an example, we find four groups grappling with provincial problems—Liberal, Conservative, Farmer and Labor. The Farmer group is beyond question a body of men representing a certain class of electors—the farmer. No matter how good their intentions may be, and despite the desires they have to be broad-minded, the plain fact remains, they are farmers, they represent farmers, and they are committed to the furtherance of the interests of the farming community. They are men, and being men, are instinctively made to observe the fact that self-preservation is the first law of nature. The Labor group is similar to the Farmer group in every respect—it is straight class representation. If the group government idea is developed, we may soon see Labor, Farmer, Manufacturer, Returned Soldier and Middle Class groups in our legislature. This presupposes a form of class warfare and we know from past history that class warfare is dangerous, pernicious and destructive. There is one feature of the old system of party politics which all fair-minded men will admit to be a good one. The supporters of the party are drawn from all classes in the community. Farmers, wage-earners, employers, middle class men and every other class are represented in the old party system. The party draws these men together and holds them together. The class or group government idea tends to create a sharp division line between them. Which is preferable?"

BRITAIN PROFITS THROUGH WAR MATERIALS

Lord Inverforth, formerly Surveyor General of Supplies in the British War Office, by world-wide purchases of raw materials on behalf of the government, was able to turn into the British treasury on March 1 last \$25,000,000, representing profits on all transactions since 1914 according to his report recently made to the Ministry

of Munitions, says a London despatch. While the profits were large, Sir Arthur Goldfinch, Director General of Raw Materials, points out that the economic benefits were far greater. The raw materials obtained were largely used in the manufacture of military equipment with a direct saving estimated at more than \$500,000,000. The purchases were of wool, hides, leather, fax, hemp and similar materials.

Insurance, generously taken out, served to more than make up losses from submarine warfare, it was stated. The record of Lord Inverforth's activities in connection with results obtained by similar departments in other Allied countries. Among the purchases were nearly 24,000,000 pounds of American sole leather and 32,000,000 feet of American upper leather.

Included in the chief items of textile and leather equipment for the army and navy, air forces and other branches of the public service, it was stated, for the Allies from August 4, 1914, to March 31, 1919, were 61,899,626 pairs of boots, \$1,538,000 worth of cotton drill, 60,917,000 yards of khaki, 16,259,000 ground sheets, 1,186,000,000 sand bags, 49,568,669 blankets, 23,776,345 socks, 164,317,737 pairs of shoes and 20,195,810 pairs of woolen gloves. Contracts made with British manufacturers for the goods afforded them a larger profit than they made, for similar work in pre-war days, it was said, and served to speed up production.

It is most regrettable that the confusion in the issue exists, but it undoubtedly does so. The premier having gone on record so definitely. It will be extremely difficult for many to know how they should vote in order to give proper registration to their opinions. Many undoubtedly are opposed to importations from other provinces and also opposed to prohibiting the use of liquor for strictly medicinal purposes. They cannot say which of these results "yes" votes on their part will bring about, for when they cast their votes they cannot tell what the effect of these will be whether they will bring about an "overwhelming" "yes" majority or a small majority or no majority at all.

MAYOR MCSWINNEY

The tragic and baffling problem of Ireland at present centres around the person of Terence McSwiney, Lord Mayor of Cork. Scores of Irish police-men have been done to death in the most brutal ways imaginable with little or no comment of late from press and public, but the eyes of the world are for the nonce turned on McSwiney in British jail, a hanger-on to the cause of freedom, while others look upon him as committing suicide. For thirty-three days he has refused food and is in very weak condition at the time of writing. With McSwiney's case before him Father Vaughan, the well-known Jesuit, has declared that he could not conscientiously grant a hunger strike on the verge of death the last rites of the Catholic church. Other priests view the case from an entirely different angle and have gone so far as to celebrate mass for McSwiney. Just last Saturday the Dublin street car service was stopped to allow the operators, most of whom are Roman Catholics in religion and Nationalist in politics, to attend to the mass for the Lord Mayor. The British Government has acted firmly in the matter despite criticism. Opinion as to the case is of course divided. On the one hand McSwiney is, as we have said, looked upon as a martyr, and a patriot who is giving his life as a contribution towards his country's freedom. On the other hand he is regarded as a rebel and a criminal, whose imprisonment was but a mild penalty for his misdeeds, and is now adding to his crime the folly and wickedness of self-murder. Under the law of nations, considering his country's position in a movement against assassination and outrage to gain its ends, McSwiney might have been shot as a rebel and a criminal. Instead he was given an orderly trial and sentenced to a moderate term of imprisonment in a British prison.

It is more awful to behold. A little child just newly born, whose little hands unconscious hold The keys of darkness and of morn." Men become so engrossed with the interests of life that they lose sight of its issues. They become so concerned with life's fancies that they fail to recognize its values. They become so infatuated with life's gifts, they often forget the Giver. Life is a great separator. We are apt to be intoxicated by its successes or to be embittered by its failures. There is much in the present to distress and much in the future to cause us anxiety, but we need not be overcome. We are to be made a country's heroes and blights its destiny, the curse of internal strife, must long for and wait for the day when the Irishmen will come together, untrammelled by religious bigotry and political bias, to seek out, and let hope to find the means of a lasting peace for the "green isle of saints and sages."

Life, instead of separating people from God, is to be the temple in which they shall find Him, the sphere of service, the fulfilment of those undertakings in which we seek what will satisfy our own deepest and holiest manhood. The Christian cannot fail to be optimistic knowing that "Though right be wronged, wrong can never triumph; we wait to rise; are baffled and fight better; sleep to wake." Nor can there be any world in which the laws which operate here are annulled. "God's love fills infinitude wholly." Throughout the universe it reigns Unalterably sure; And while the truth of God remains His goodness must endure."

THE CONFUSION REGARDING THE PLEBISCITE

(Edmonton Journal)

The question of whether the present prohibitory law in Alberta shall stand, or shall be changed, or shall even be repealed and the license system re-established does not enter into the issue, and will not be affected one way or the other by the plebiscite may result.—Edmonton Bulletin.

On the face of things this appears to be quite correct. At the plebiscite we are to be asked simply to vote whether we wish to prevent liquor shipments from other provinces to continue or not. But at the last session of the legislature Premier Stewart made the statement that if the "yes" vote at the plebiscite were sufficient to cause the law to be repealed, he would consider that he had a mandate to introduce "bone dry prohibition." This is what he said in the legislature on March 25th last in reply to a query by Col. Spencer of Medicine Hat.

If an overwhelming majority is in favor of the prohibition of importation, I assume that the people are for "bone dry prohibition."

Will you make a statement to that effect? asked Mr. Hoadley of Okotoks.

I am making the statement now, reported the premier, and I am prepared to go on the platform and say it. I do not want to be classed with intolerant persons. I believe in giving the other man the right to say what he wants. And I say to those who want liquor for leverage purposes, go and vote in that plebiscite for the importation of liquor if you want it; if you do not want it, vote against it. I don't propose to be stampeded by anyone, and I will take my full share of responsibility.

Immediately after the premier had made this statement, The Journal asked that he should state definitely what he meant by "bone dry." This he did on April 3rd, when he used this language in the house.

I take it that "bone dry" doesn't mean that the doctor can make prescriptions for liquor as "medicine" or anything else. So the doctors will be relieved of that, if they will assist other citizens in voting on the plebiscite.

Even this was not as clear as was desirable, considering the importance of the question, but it has, any meaning it is that doctors will, in case there is an overwhelming "yes" vote next month, be prohibited by the legislature from prescribing liquor for any purpose whatsoever. That, at least, was the general interpretation given the premier's second statement and its correctness was not challenged by him.

The introduction of such "bone dry" prohibition would certainly be a

His faith is not the anaemic type which ignores the stern realities of existence, but a virile conviction that the order of the universe is rational and benevolent.

With McSwiney's case before him Father Vaughan, the well-known Jesuit, has declared that he could not conscientiously grant a hunger strike on the verge of death the last rites of the Catholic church. Other priests view the case from an entirely different angle and have gone so far as to celebrate mass for McSwiney. Just last Saturday the Dublin street car service was stopped to allow the operators, most of whom are Roman Catholics in religion and Nationalist in politics, to attend to the mass for the Lord Mayor. The British Government has acted firmly in the matter despite criticism. Opinion as to the case is of course divided. On the one hand McSwiney is, as we have said, looked upon as a martyr, and a patriot who is giving his life as a contribution towards his country's freedom. On the other hand he is regarded as a rebel and a criminal, whose imprisonment was but a mild penalty for his misdeeds, and is now adding to his crime the folly and wickedness of self-murder. Under the law of nations, considering his country's position in a movement against assassination and outrage to gain its ends, McSwiney might have been shot as a rebel and a criminal. Instead he was given an orderly trial and sentenced to a moderate term of imprisonment in a British prison.

It is more awful to behold. A little child just newly born, whose little hands unconscious hold The keys of darkness and of morn." Men become so engrossed with the interests of life that they lose sight of its issues. They become so concerned with life's fancies that they fail to recognize its values. They become so infatuated with life's gifts, they often forget the Giver. Life is a great separator. We are apt to be intoxicated by its successes or to be embittered by its failures. There is much in the present to distress and much in the future to cause us anxiety, but we need not be overcome. We are to be made a country's heroes and blights its destiny, the curse of internal strife, must long for and wait for the day when the Irishmen will come together, untrammelled by religious bigotry and political bias, to seek out, and let hope to find the means of a lasting peace for the "green isle of saints and sages."

Life, instead of separating people from God, is to be the temple in which they shall find Him, the sphere of service, the fulfilment of those undertakings in which we seek what will satisfy our own deepest and holiest manhood. The Christian cannot fail to be optimistic knowing that "Though right be wronged, wrong can never triumph; we wait to rise; are baffled and fight better; sleep to wake." Nor can there be any world in which the laws which operate here are annulled. "God's love fills infinitude wholly." Throughout the universe it reigns Unalterably sure; And while the truth of God remains His goodness must endure."

A Word to Prospective Buyers

Wholesale prices received this week show advances ranging from 5 per cent. to 10 per cent. over the last list which we received in the spring. In addition to these advances there will be from today an increase of 35 per cent. in the cost of laying down the manufactured article, and of 40 per cent. on the raw lumber to the manufacturer. A conservative estimate is that the increased freight rates will add about 12 per cent. to the net cost of furniture.

Our stock is very complete, and we are still able to sell at last year's prices.

Dated at Sylvan Lake, this 1st day of September, 1920.

A. McCASKILL, Secretary-Treasurer.

Sept. 1, 1920.

UPHOLD BRITISH RULE IN IRELAND

Approval of Lloyd George's policy toward Ireland comes from Winchester, Ont., where at a mass meeting of the citizens a forceful resolution assuring the British Premier of sympathy and support in his battle for equal justice was unanimously passed. A copy of the resolution was cabled to Lloyd George. The meeting was called at the instance of Reeve J. P. Ault, and was under the chairmanship of Mr. A. Sweet. The resolution follows:

"A mass meeting of the citizens of Winchester, Ont., heartily approves the stand taken by you in opposition to the traitorous propaganda of the Sinn Feiners and other disloyal elements, and assures you of the sympathy and support of the loyal population of Canada in your determined stand for equal justice to all."

CITY COUNCIL MEETING

(Crowded out last week)

The regular meeting of the City Council was held on Monday evening last, with His Worship Mayor W. E. Lord in the chair, and Ald. Collison, Broughton, Turnbull, White, Sprou and Moyes in attendance.

CORRESPONDENCE
The secretary of the Horticultural Society wrote, thanking the Council for grant of \$50.

E. M. Wilson, recording secretary of Waskasoo Lodge I.O.O.F., made certain complaint of the condition of the isolation hospital.

The letter was answered by asking Mr. Wilson to appear before the Board of Health with complaint and proof, when it would receive attention.

Mr. Wilson had failed to appear before the Board.

A. McCaskill, secretary of Sylvan Lake, wrote he had forwarded bill for Mary McLeod's sickness to Municipal District 40, Leslieville.

A. E. Richards, Reeve of Big Valley, wrote asking for information re electric lighting cost.

The Mayor of Edmonton wrote with regard to his reference that the Union of Canadian Municipalities seems to have outlived its usefulness so far as western municipalities are concerned, and asking what steps should be taken with regard to forming a Western Canada Union of Municipalities. Filed.

The secretary of Stettler wrote asking for water rates.

Morris Brothers, Portland, Oregon, wrote re bonds.

Balwin, Dow & Bowman, auditors, wrote audit of city books to July 31 was O.K.

J. E. Fraser, secretary of Waskasoo, wrote asking for information re Commissioner, how appointed and salary. Information given.

A petition was read from Parkville residents, signed by Messrs. Wright, Kennedy, McLevin and others, asking that a water service be installed to their residences.

The Commissioners brought in the following report:

1. The bridge over Waskasoo Creek on Ross St. has been completed and opened for traffic. Report on construction cost is submitted herewith. We authorized Engineer Dave to carry the sidewalk on the outside of the traffic bridge. This costs little additional and is much better. The bridge is substantially built and will carry any heavy traffic. All timber lumber used in the bridge was salvaged from the Cement Builders' property.

2. Chief Anderson reported that the buildings at the Exhibition grounds were being damaged seriously. We inspected the grounds and buildings and found that practically all the doors in the buildings had been left

wide open after the Exhibition and many of the big doors and some of the windows had been badly smashed in banging with the wind. It will cost considerable money to repair them. Several years ago padlocks were provided by the city for all the doors and they could easily have been closed and locked after the stock and goods were removed. The buildings have not been cleaned out and there are dozens of loads of manure in and outside the stables. We ask your instructions in the matter.

3. The grading of the new road leading south west is about completed. We had Mr. Anderson continue the grading within the limits of the old trail across the C. P. Ry. We are awaiting for a proposition from the C. P. Ry. relative to moving the railway crossing to opposite the extension of Victoria Ave. before doing any more work there.

4. We have inspected all buildings on the old Cement Builders property and recommended as follows:

A.—That the old stable at the back be sold, if possible, otherwise dismantled.

B.—That the small tool shed (about 8 ft. x 10 ft.) be moved to Waskasoo Park, painted and used for the stove for conveniences of planters in future.

C.—That a shed, 15 ft. x 10 ft., on the south side of the building, be moved to the skating rink site and used for a storage shed for the water cart, sleigh, grader, rake, sewer pipe, etc. This shed is badly needed, as the present storage yard at the waterworks intake is too far from the Fire Hall.

D.—That the remaining buildings be dismantled as soon as time can be spared to do it. There are thousands of feet of good lumber and timber, brick and other material that can be used by the city later or sold.

E.—That all wood and lumber not fit for use be piled up and sold for firewood during the winter when the team is not busy on other work.

6. The trails contracted to be painted into Red Deer by the Dominion Trails Association have been painted. We submit voucher for balance of price.

7. We recommend that the road on 3rd St. S.W. between 1st Ave. S. W. and Kingsmill Ave. be graded at once. This work is badly needed and was promised the residents of that street.

8. Foreman Jones has been instructed to improve the Cemetery Hill. Curbs will be run across the road and drainage improved.

9. We recommend that we be authorized to execute transfers to lots in Englewood where we can arrange exchange of lots as the subdivision can be cancelled later.

10. Regarding the petition for extension of water mains in Parkville: Length of main asked for is 535 feet. App. cost of 6 inch main will be \$1180.00 plus cost of 7 services, \$210.00; total cost, \$1390.00. Cost of 4 inch main laid, app. \$890.00; cost of 7 services, \$210.00; total cost

\$1100.00. Annual payment on cost of 6 inch main, 20 year 7 per cent, debenture, \$131.77; annual payment on cost of 4 inch main, \$103.33. Total annual revenue from frontage tax and water rates, \$94.00.

Number of owners of property fronting the road is 23; number signing the petition, 7, of which one can get water service from main on 3rd Ave. E.

Though the annual revenue will about pay the carrying charges annually, we cannot recommend that this extension be laid this year as it would necessitate the issuing of debentures, and the time is too short now to vote on a money-bill and then get material here to lay the main before freeze up.

11. We submit statement of receipts and disbursements for August.

12. We submit departmental reports for August.

All of which is respectfully submitted.

W. E. LORD,
A. T. STEPHENSON,
Commissioners.

With regard to installing water service in Parkville, after some discussion and hearing a few remarks from Mr. Wright, a member of the delegation present, the Council decided to get all information regarding the matter and Commissioners will report at next meeting.

Departmental reports were read for August.

The Commissioners' report was adopted, with the exception of Clause 9, which was referred back for further consideration.

Ald. Collison and Broughton moved that Clause 2 of the Commissioners' report be forwarded to the Exhibition Board, and followed up by the Commissioners discussing with the Board the information therein contained and report. Carried.

ACCOUNTS
The following accounts were passed:

Sec. M. D. Raven \$2.95; Bank of Montreal \$101.00; Deputy Mun. Affairs \$37.23; H. McLevin \$4.00; Dawe & Pamelly \$10.00; J. Barrett \$24.12; Day Hardware Co. \$41.39; J. Murphy \$65.83; Mrs. Taylor \$5.15; Munro & Baines \$21.50; Red Deer Advocate \$6.00; W. Springett \$7.50; Sec. Horticultural Society \$50.00; August Wage Sheet \$653.70; Western General Electric \$28.37; Broughton & Son \$12.50; Gorman, Clancy & Co. \$25.05; Jarvis-Goodley Co. \$5; Gaetz-Cornett Co. \$35; Dominion Trails Association \$50.00; Smith Lumber Co. \$126.45; Alberta Government Phones, \$8.60; Dairy Products, Ltd., \$27.75.

A general discussion took place regarding some needed grading and other work which had stood for several years and should be completed to finish out the year's work.

It was decided to grade down hill

south of Smith Lumber Co. so as to drain the road as far south as the Howson barn and fill in the hole at the foot of the grade and turn the water in the catch basin on Gault Avenue. Also to grade up several other streets.

The Commissioners will have the streets purchased from the townsite people surveyed and registered.

The Mayor said he had taken up the matter of the C.P.R. crossing south-west of the city with Mr. Jamieson, and he felt that the question would be worked out to the satisfaction of all concerned.

The work on the streets will be left to the discretion of the Commissioners.

Ald. Collison asked what had been done to repair the traffic bridge.

The Mayor said the Board of Trade had appointed a committee to take the question up with the government.

Ald. Broughton asked about the bridge, which was not half so important as our traffic bridge, had been re-ordered.

The Commissioner pointed out that Lacombe had a road foreman and he would look after that. He contended we should have a road foreman at Red Deer.

Ex-Mayor F. W. Galbraith gave a brief account of his trip east as the Council's delegate to the Union of Canadian Municipalities. He was greatly pleased with the reception given him at the convention. He spoke of the loyalty of the French people to the King, and he never heard the National Anthem sung with more fervor than at the banquet of the Union of Municipalities, he said.

The Council adjourned at 10:30 o'clock.

Inspector Fisher testified as to statement made by the accused after his arrest that Carlos and Harry stole the Smith horses, that he knew the police were looking for the horses and that he had instructed Bill Mason of Gadsby to call up Carlos on the phone and tell him to have the horses corralled, that he and his brother Ira had driven over from Gadsby to Sylvan Lake during the night and that he had taken the four horses out of his brothers' pasture and turned loose as he did not want Carlos and Harry to get in trouble and wished to get the horses out of the way before the police got hold of them.

After consideration the magistrate dismissed the charge against the accused stating that the evidence was not strong enough to prove conclusively that the accused knew that his brothers Ira and Carlos actually stole the horses in question. Carlos and Harry Shearer were charged with unlawfully stealing four head of horses, the property of E. E. Smith, of Gadsby, on or about August 1, 1920, at near Gadsby.

Mr. Smith identified two bay geldings branded O on right ribs lost by him as in the possession of the police at Red Deer.

W. McTaggart, Gadsby, swore that in the first week of August he had noticed a bunch of heavy horses near the Content bridge being driven into the bush by two men who struck him as not wanting to be seen. He went over to the horses and took note of their brands and their general appearance: several of the brands had been worked. He identified two horses held by the police at Red Deer and identified by Smith as his, as two of the horses he had seen at the Content bridge, and he swore positively to the prisoners as the men he had seen driving the horses. On his return through Stettler to Gadsby from his fishing trip, he had notified Corpl. Mahoney of the suspicious circumstances, but he did not then know the names of the men nor where they lived.

Claude Shearer testified that about the beginning of August last both the accused Carlos and Harry arrived at his place near Sylvan Lake with four head of horses two of which he identified as being the animals at present in possession of the police at Red Deer.

The accused were committed for trial.

Claude Shearer was bound over to appear and give evidence at the trials of his brothers, and Ira, Carlos and Harry were released on bail of \$5,000 each, \$2,000 themselves and \$3,000 inures.

GERMANY SHALL

BE ADMITTED TO

NATION'S LEAGUE

Aix Les Bains, September 14

"France and Italy reserve the right to recognize the Soviets or not," P. M. G. of Italy informed the Associated Press, following a joint official declaration on the meeting of the prime ministers of the two nations.

"France" continued the Italian premier, "has already declared that it does not wish to recognize the Soviets. Our freedom of action is general reserve, whether concerning politics or commercial relations."

"Germany shall be admitted to the League of Nations when she shows willingness to execute the Treaty of Versailles. Whether the date be distant or not lies entirely with Germany. The result of my meeting with M. Millerand implies a continuance of the close relations between Italy and France which existed during the war."

"There is no reason why Italy, France and Great Britain, which fought side by side for years, should not be in accord when the war concluded."

SHEARER HORSE-STEALING CHARGES

Owen Discharged, Carlos and Harry Committed

The Shearer horse-stealing charges were continued before Col. McLeod, police magistrate, at Red Deer court house on Thursday evening.

Owen Shearer was next placed on trial charged with theft, on or about the 24th day of August, 1920, at near Sylvan Lake, well knowing Carlos and Harry Shearer to have stolen four head of horses the property of E. E. Smith, of Gadsby, did unlawfully assist in the theft of same.

Mr. Smith, of Gadsby, testified to missing among others four head of horses two of which he subsequently saw in the police stable at Red Deer and identified as his property, also the accused telling him that he would find these horses for him at the time the matter was reported to the police; also to the accused stating that he had found four horses outside his brothers' pasture at Sylvan Lake and offering to buy same. This conversation took place half an hour before the accused was arrested by Corpl. Mahoney near Stettler.

Inspector Fisher testified as to statement made by the accused after his arrest that Carlos and Harry stole the Smith horses, that he knew the police were looking for the horses and that he had instructed Bill Mason of Gadsby to call up Carlos on the phone and tell him to have the horses corralled, that he and his brother Ira had driven over from Gadsby to Sylvan Lake during the night and that he had taken the four horses out of his brothers' pasture and turned loose as he did not want Carlos and Harry to get in trouble and wished to get the horses out of the way before the police got hold of them.

LEST WE FORGET

Red Deer and District MEMORIAL

The people of Red Deer and District will be asked on Wednesday, October 6th, to contribute to a Memorial in remembrance of the gallant sons who fell to protect Canada in the great war.

Surely we would be ungrateful did we not keep before ourselves and before the boys and girls of the district and the town some public remembrance of the great sacrifices of the war, and the greater get-togetherness it has aided to bring about.

It is a duty and a privilege to subscribe to this most worthy effort.

What is Your Duty in the Matter?

IDLE THOUGHTS OF A BUSY FARMER

If gasoline goes to \$1.00 a gallon, one result will be there will be a lot of people buying gasoline at \$1.00 a gallon.

A grand rally of the "Superannuated Society of Free and Accepted Sons-in-the-Made" will be held in Red Deer on the 31st September.

Many important personages are expected to be present. The leading exponents of the new Liberal party from Ontario, who have seats in Parliament from the provinces.

The programme will be somewhat as follows: Opening Prayer offered by the Rev. A. L. M. King; Choir, "There is My Wandering Boy Tonight"; Address, "How to run a copper mine in Arizona" by J. D. Rodolph; by Alex. M. King; Choir, "There Were Ninety and Nine"; Address, "How to keep out of trouble in war time" by Lyon M. King; Choir, "One More River to Cross"; Address, "How to fool the Free Trader and Protectionist" by A. L. M. King; Choir, "He was despised and rejected"; Mr. W. F. Puffer will also give an address on "How to run with the fox and hunt with the hounds"; Mr. A. L. M. King will close the meeting with an address on the advantages of the new Liberal party, an unlimited amount of toffee and soft soap will be handed the expectant multitude. Following the meeting Mr. A. L. M. King, the would-be Premier of Canada, will proceed on a fishing excursion. He hopes to land a good haul of suckers.

One swallow doesn't make a summer, but it warms one up these chilly mornings.

"Did you hear about Martin getting stung by a rattler before Billy Lobman's sale?" "Good heavens, no. How did it happen?" "He bought a used car without first testing it."

"For three years, I was a terrible sufferer from indigestion, constant headaches and constipation. I took various medicines for the trouble but nothing seemed to do me any good."

Then, a friend advised me to try "Fruit-a-lives". Now I am free of indigestion and headaches, the constipation is cured, and I have gained considerable weight; and my general health is fine.

"Fruit-a-lives" is a grand medicine and I cannot say enough in its praise."

TO-DAY

Today is what you have. It is also what you are. And again, Today is what you do. And if you haven't anything, and aren't anybody, and do nothing, why then, for you there is no Today.

For Today is music. Today is joy. Today is literature. Today is art. Today is work. Today is play. Today is LIFE!

Yesterday is no problem—for it is past. Tomorrow is no problem—for it isn't here. Today is supreme. Today is the world. Today is Opportunity!

Crowd in upon it then. Today—take hold upon its faintest chance. Spread your smiles—Today. Be game—Today. Be glad and great—Today.

Today is the day—your day. Today is time and change doing its job. Are you a vital part of things? Today you may start out all anew. Today you may put to use what you learned yesterday. The centre of your entire life may revolve about Today.

But, above all things, do not fear Today. And let all worry slide. All things that do not count—let them go, too. Work and help and love—Today.

For this Today will never dawn again.

RAILWAY IS BLAMED FOR FOREST FIRES

Duluth, September 16.—Judges of the district court sitting on the case today handed down a decision in favor of the plaintiff in the Clouquet Fire Cases against the United States Railroad Director, W. D. Hines, as war time manager of the Great Northern Railroad. The decision gives damages to 278 plaintiffs and involves approximately three million dollars, resulting from the forest fires of October, 1918. The decision is looked upon as of great importance, because it fixes the liability and origin of the fires in Clouquet District, and has direct bearing on other suits involving ten million.

PROHIBITION AIDS FREEDOM

By Ernest Thomas.

When taunted with the charge that prohibition interferes with liberty, some people reply, "My freedom ends where the other man's freedom begins." This is not true, and only helps the enemy.

My freedom begins only where the other man begins to get freedom. There is no freedom found in the helplessness of the savage life. Freedom only rises as one enters into the co-operative life of a community.

The Post-office Act makes it criminal for you to pay someone to carry a letter for you. But for half the price you would pay, the State places at your disposal the transportation system of the world. By organizing action so that no one just goes his own way, the best and cheapest service of the world becomes for everyone "his own way."

One cannot make a nice home without the aid of neighbors. If they are allowed to keep their back lanes filthy, and their front grounds dirty, my home will look wretched. But if all unite in one common effort we can all like gain the fine group of homes. We all escape trouble and dirt together.

We cannot find health by individual action unless aided by the common action of the citizen body. Water and milk, drainage and clean streets, housing and open spaces, are all secured by concerted action of the community. My freedom to be strong and happy begins at the point where the other man's freedom starts.

We want to have lives free from the blight of liquor. But if other homes are having it the children who grow in those homes carry their home customs over into the life of our youngsters. We must act together to get free from the stuff.

No one proposes to "take anything over" on the people. The citizen body is asked to combine its efforts to think out the right way of dealing with liquor. Several months are allowed for discussion and every one has a part in shaping public opinion. Then comes the time when the public opinion thus formed will declare itself on voting day.

In uniting with one's fellow citizens to form one collective decision for the common good, one is not interfering with the growth of freedom, but aiding it. Within the reach of a larger part of the people and is thus a stimulant to trade.

The price of a commodity is lowest and the quality is bettered through the medium of advertising. Take the automobile as an illustration. Advertising has made the automobile business. It overcame the prejudice that existed against the machine and created a demand that enabled the factories to increase the output and cut the selling price to less than five per cent of what it was a few years ago.

It is readily seen the consumer does not pay for advertising. It cannot be the advertiser, as advertising increases his sales, decreases his selling cost and increases his profit. The advertiser doesn't pay, because the advertising pays him.

Then who pays for the advertising? The non-advertiser pays for the advertising competitor. All the business he loses to his advertising competitor is part of the price he pays. The non-advertiser and the non-advertiser, each in proportion, pay for the ads. of the good advertiser.

ALBERTA FARMER GETS A PRICE OF OVER \$2.77 BUSH.

Calgary, September 12.—The first car of this season's Alberta wheat, which was consigned to Willard Cuming & Company, of this city, from Cardston, and sold to the Western Canada Flour Mills, netted the farmer 14,429.38, less one per cent. commission charges. The car contained 1,702.10 bushels and the price at which it was sold was \$2.77 3/4. It is believed on the Calgary grain exchange that this is a record figure for a carload of wheat.

WHO PAYS FOR ADVERTISING?

It is common to hear a non-advertiser's merchant say that he doesn't believe in advertising, but gives the customer the benefit of the money he saves by not advertising. Let us explain this statement and see how much truth it contains.

Judicious advertising sells more goods for the merchant, turns stock quicker and makes it possible, by increasing the volume of business, to buy in bigger quantities and obtain a bigger discount.

The price of a commodity is lowest and the quality is bettered through the medium of advertising. Take the automobile as an illustration. Advertising has made the automobile business. Their Glory Shall Not Fade

In the special order issued to the Canadian troops on March 27, 1913, General Sir Arthur Currie wrote: "To those who will fall I say, 'You will not die but step aside for a moment—your names will be revered forever and ever by your grateful country, and God will take you into His self.'"

The pledge thus given is being faithfully fulfilled in relation to employees of the Canadian Pacific Railway Company by the placing of bronze memorial tablets at over a score of its principal offices and stations. Furthermore two imposing bronze statuary groups have been signed for the great C.P.R. Station at Montreal and Winnipeg to stand forever as tribute to the heroism and self-sacrifice of C.P.R. men who died in the cause of freedom. Par-tung and scattered are their graves, but single was their spirit and their ideal, the service of their country.

But of 1,102 employees who were reported as joining the Forces, 1,095, or nearly ten per cent paid the supreme sacrifice. These came from every rank of the company, from every department, and every service, by air, land and sea—brought into death.

The bronze tablet, replicas of which will be placed at the principal railway centres in each province of Canada, and also in London, Liverpool and the Orient, has been designed by Mr. Archibald Pearce, of the Chief Engineer's Department of the Birmingham Guild and Applied Arts.

The tablet depicts an advancing army of infantry, cavalry, artillery, supplies, munitions, tanks and railway transport flanked on either side by a warship and a C.P.R. liner with aeroplanes flying overhead. Britannia came with outstretched hands to the Overseas Dominions and points out the road to death and glory with an underneath is a scroll with the list of the chief battles in which the C.P.R. men fell. The inscription commemorates:

"Those in the Service of the Canadian Pacific Railway Company who at the call of King and Country, left all that was dear to them, endured hardship, faced danger, and finally passed out of sight of men by the path of duty and self-sacrifice, giving up their own lives that others might live in freedom. 'Let those who come after see to it that their names be not forgotten.'"

The large bronze statuary group which will be duplicated for the C.P.R. Stations at Windsor Street, Montreal and at Winnipeg, is the work of Couer de Lion MacCarthy, the well known Montreal sculptor. Its majestic and impressive allegory represents the uplifting of the soul of a hero from the battle lines to that home from which no traveller returns. "The armed figure of a soldier clad in khaki, battle-stained, yet tranquil in death, is borne heavenwards by a winged and laurel-crowned Angel of Victory. The figures in the group are of heroic proportions, over seven feet high, supported upon a marble pedestal."

Thus shall the memory of the gallant dead remain in inspiration to their comrades and to the world at large. By their sacrifice for the Empire, they kept clear and open the

Imperial Highway, and on the stations of that Highway their glory shall forever be recorded.

Mrs. Parsons left for Victoria for a
short wedding trip, which is to be un-
expectedly prolonged by the receipt by
Dr. Parsons on Saturday of word that
he had been appointed a fellow of the
American College of Surgeons, and
that the degree would be conferred at
Montreal on October 15. The news
came as a most pleasing wedding gift.
The Doctor is already a fellow of the
Royal College of Surgeons of the old
land, and he will now have two of the
highest honors in the surgical world.

Strawberry
Jam

That's Good

The reason that Quaker Brand
Strawberry Jam has such a fine flavor
is because we use the berries from
the best fruit lands in the Province
and make them into jam immediately
they are picked.

There is no secret. Nature gives
the berries their fine flavor. We re-
tain it.
